Rajesh Vasudevan – Professional Profile
Name: Rajesh Vasudevan
Current Role: Digital Lead – Polestar
Location: Gothenburg, Sweden
Organization: Polestar (Swedish Electric Performance Car Brand)
Project Context:
Rajesh Vasudevan serves as Digital Lead at Polestar, working closely with Infosys India on the Polestar-Infosys strategic collaboration. This partnership, announced in September 2024, established a global technology hub in Bengaluru, India, focused on EV software development, in-car infotainment, Advanced Driver Assistance Systems (ADAS), telematics, and cloud-powered digital services.
Areas of Expertise:
Vehicle and Cloud Communication
Software Download (SWDL) and SDLC
Testing Strategies
Agile Methodologies
Network Engineering
Background:
Rajesh is a network engineer by training with strong experience in automotive digital systems and EV technology. He acts as a key interface between Polestar and the Infosys delivery team in India.
